EDUCATION

Knowledge Institute of Technology
B.Tech – Information Technology
📅 2022 – 2026
Current CGPA: 7.1 / 10

Government Higher Secondary School
HSC
📅 2021 – 2022
12th Percentage: 63.3%

Government Higher Secondary School
SSLC
📅 2019 – 2020
10th Percentage: 45%

SKILLS

- python
- Datascience
- Machine Learning/Deep Learning
- python frameworks-FastApi,flask
- linux,Docker
- mlops/React basics

ACHIEVEMENTS

Hackathons:

- 2ND Prize at Jai Sri Ram College with 2000 cashprice
- Top 5 at Alliance university with 5000 cashprice
- Top 10 at Dr.AIT
- Top 7 at Reva University

Paper Publication at international Journals (IJSAT)-

Extracurricular Activities

- NSS volunteer
- Rotaract club volunteer

PROFILE SUMMARY

AI Full-Stack Engineer with strong expertise in machine learning, deep learning, and full-stack web development. Proven ability to architect and deploy scalable AI-driven applications using Python, TensorFlow/PyTorch, React, Node.js, and cloud platforms like AWS, GCP, and Azure. Experienced in building intelligent systems integrating NLP, computer vision, and generative AI models, and deploying them with modern MLOps practices. Adept at designing and optimizing both backend AI pipelines and frontend user interfaces for real-time analytics, chatbot systems, recommendation engines, and intelligent dashboards

INTERNSHIP

Skillvertex   05.02.2024-05.03.2024

DataScience & Machine Learning

in a Intern with hands-on experience in analyzing complex datasets, building predictive models, and delivering actionable insights to support data-driven decision-making. Proficient in leveraging data analysis tools and machine learning techniques to solve real-world problems.

Prodigy infotech   15.04.2024-15.05.2024

Data Science

- In a datascience intern is are predict to the stock prediction and involve some project and to Gained practical experience in data wrangling, cleaning, and preprocessing to ensure the integrity of datasets.
- Worked on designing and implementing machine learning models using tools like Python and Scikit-learn.
- Developed insightful data visualizations with Matplotlib, Seaborn,
- Contributed to projects involving time-series analysis, sentiment analysis, and clustering techniques.

CODSOFT   15.05.2024-15.06.2024

Python Programming

problem-solving techniques.Worked extensively with libraries such as Pandas, NumPy, Matplotlib, Seaborn, and OpenPyXL for data analysis and visualization.

PROJECT

- STOCK PREDICTION TO CREATE DASHBOARD
- DIABETES BASED ON HEALTH CONDITION
- TEXTILE SALES PREDICTION/RETAIL SALESFORECASTING
- INDIAN RESTAURANTS RATING PREDICTION/AI INTEGRATION ANALYTICAL DASHBOARD
- Own AI chatbots,AI Image Generater,Semantic Search Engine
- Text generator,MultimodelAIsystem,TextSummarize pipeline
